## FRAMEWORK FOR ETHICAL LEADERSHIP IN EDUCATION

- 1. **SELFLESSNESS** | School and college leaders should act solely in the interest of children and young people.
- INTEGRITY School and college leaders must avoid placing themselves under any obligation to people or organisations that might try inappropriately to influence them in their work. Before acting and taking decisions, they must declare and resolve openly any perceived conflict of interest and relationships.
- OBJECTIVITY | School and college leaders must act and take
  decisions impartially and fairly, using the best evidence and
  without discrimination or bias. Leaders should be dispassionate,
  exercising judgement and analysis for the good of children and
  young people.
- 4. ACCOUNTABILITY | School and college leaders are accountable to the public for their decisions and actions and must submit themselves to the scrutiny necessary to ensure this.
- OPENNESS | School and college leaders should expect to act and take decisions in an open and transparent manner. Information should not be withheld from scrutiny unless there are clear and lawful reasons for so doing.
- 6. HONESTY | School and college leaders should be truthful.
- 7. LEADERSHIP School and college leaders should exhibit these principles in their own behaviour. They should actively promote and robustly support the principles, and be willing to challenge poor behaviour wherever it occurs. Leaders include both those who are paid to lead schools and colleges and those who volunteer to govern them.

Schools and colleges serve children and young people and help them grow into fulfilled and valued citizens. As role models for the young, how we behave as leaders is as important as what we do.
